

I am writing in support of KBHC/1-800-SUICIDE and encourage the FCC to not simply transfer the lines at a request of another government agency. Please recognize that HHS/SAMHSA have been working at trying to suffocate 1-800-SUICIDE because they created a competing hotline. Why does the government want private confidential caller information? Please protect the callers' identity. They are attempting to use the FCC to try and get a rule changed in order to hostilely take over the lines. Please, do not let that private phone companies like Patriot and McLeod work with HHS/SAMHSA to break the rules and work against this nonprofit and the public good!"

Thank you,

Brenda Lee Mitchell

Keep KBHC 1-800-SUICIDE Alive!
